MAKE ACCURACY PERSONAL

The Trimble® R1 is a rugged, compact, lightweight GNSS receiver that provides professional-grade positioning information to any connected mobile device using Bluetooth® connectivity. Purpose-built for mapping and GIS professionals in a variety of organizations, including environmental agencies, government departments, and utility companies, the standalone Trimble R1 receiver enables you to collect higher-accuracy location data with the device you already use—whether it is a modern smart device, such as a mobile phone or tablet, or traditional integrated data collection handheld or tablet.

Improved GNSS Positioning—On Any Device

For users challenged with collecting high-accuracy location data using their existing consumer-grade devices, the Trimble R1 receiver is the solution. No matter what smart device you choose—from iOS to Android—for collecting GIS data, inspecting, or managing assets, the Trimble R1 lets you achieve a greater level of reliable spatial accuracy than your current smart phone or tablet is able to provide on its own.

Because the Trimble R1 is compatible with a variety of devices, your current technology investments are maximized, all while ensuring you collect reliable higher accuracy data. In addition, the investment made in your Trimble R1 GNSS receiver allows you to upgrade to the latest smart device or share the R1 between multiple devices whenever needed, saving you money and keeping you productive and efficient.

Professional Data Collection in More Places

Capable of supporting multiple satellite constellations, including GPS, GLONASS, Galileo and BeiDou, the Trimble R1 provides a truly global solution. Delivering GNSS positions in real-time without the need for postprocessing, correction sources such as SBAS, VRS, or RTX networks can be applied to suit your location and desired accuracy—giving you confidence in achieving reliable GNSS information anywhere in the world.

Obtain submeter accuracy by using the Trimble R1 with the optional Trimble ViewPoint RTX service. Trimble ViewPoint RTX service* offered with the Trimble R1 provides internet-delivered submeter accuracy wherever cellular communications are available or over satellite L-band, even in remote locations.

Support Your Daily GIS Workflows

The Trimble R1 integrates with the flexible and robust workflows of Trimble Mapping & GIS software—including Trimble TerraFlex®, Trimble TerraSync®, and Trimble Positions™ software—or third-party applications. No matter what mobile device you use, Trimble’s professional data collection software means you can be certain your GIS is populated with quality data you can trust.

Built to Work the Way You Do

Weighing just 187 g and measuring at 11.2 cm x 6.8 cm x 2.6 cm, the Trimble R1 can go wherever you go. Easily carry around the Trimble R1 as you perform all of your data collection and asset management tasks. The receiver can be polemounted, carried in a vest pocket, or attached to a belt using the optional belt pouch—giving you the flexibility to choose how you use it while keeping you streamlined and cable-free, thanks to wireless Bluetooth connectivity. Plus the all-day battery life means it will keep going as long as you do. Built to last with certified MIL-STD-810 ruggedness and IP65 rating, the Trimble R1 receiver won’t quit when the going gets tough.

Flexible and practical, accurate and rugged—the innovative Trimble R1 GNSS receiver delivers professional-level positions to everyone.

Key Features

- Small, rugged, lightweight GNSS receiver for great mobility
- Compact, cable free solution with integrated antenna
- Flexibility to choose your data collection antenna
- Bluetooth connection to Trimble handhelds or consumer-grade smartphones
- Provides higher-accuracy location data
- Flexible, professional data collection in more places

*RTX available through Trimble applications
### GNSS Receiver Specifications

**Sensor type**
- L1/G1 GNSS receiver and antenna

**Systems**
- GPS, GLONASS, Galileo, Beidou, QZSS

**Channels**
- 44-channel, parallel tracking

**Correction sources**
- SBAS, ViewPoint RTX, QZSS, VRS

**SBAS**
- 4-channel, parallel tracking

**Receiver protocols**
- NMEA 0183 v4.00, Binary

**Update rate**
- 1 Hz

**Time to first fix**
- 45 s typically

**Reacquisition**
- < 2 s

**Real time correction protocols**
- CMR, CMR+, CMRx, RTCM 2.1, 2.2, 2.3, 3.0, 3.1

**SBAS accuracy**
- 50 cm HRMS

**Code DGNSS accuracy (real-time)**
- 75 cm + 1 ppm HRMS

**ViewPoint RTX**
- 50 cm HRMS

**Maximum speed**
- 1,850 kph / 999 knots

**Maximum altitude**
- 9,000 m

### Interfaces

- Port: Bluetooth 2.1 + EDR, USB 2.0
- Bluetooth transmission: Class 2 (10 m) AP2 and 2.1 EDR
- Bluetooth frequency: 2.400 - 2.485 GHz
- Raw measurement data: T rimble GSOF, Binary
- Communication status LED: Charging
- Power status LED: Charging (full), 3 stage battery status

### Battery and Power

- **Battery type**: Integrated Lithium-Ion
- **Battery capacity**: 3.7 V 15 Wh
- **Battery life**: > 10 hours
- **Charging time**: 5 hours (typical, with supplied charger)
- **External antenna output**: 3 VDC
- **External antenna input impedance**: 50 Ohms
- **Power status LED**: Charging, charging (full), 3 stage battery status

### Environmental

- **Water/Dust Ingress**: IP65
- **Temperature (MIL-STD-810G)**
  - Operation: -20 ºC to +60 ºC
  - Storage: -30 ºC to +70 ºC
- **Drop shock (non-operating)**
  - MIL-STD-810G Method 516.5 Procedure IV
  - 1.2 m to plywood over concrete
- **Vibration**
  - MIL-STD-810G Method 514.5 Procedure I Category 24
  - 1.2 m to plywood over concrete
- **Relative humidity**
  - MIL-STD-810G Method 507.6, 95% non-condensing
- **Altitude rating**
  - MIL-STD-810G Method 507.6, 95% non-condensing
  - Maximum operational altitude: 12,192 m
- **Maximum storage altitude**: 9,000 m

### Mechanical

- **Enclosure dimensions**: 11.2 x 6.8 x 2.6 cm
- **Weight**: 187 g
- **Power connector**: Micro-B USB female
- **External antenna connector**: SMB female

### Internal Antenna

- **Frequency range**: GPS L1 and GLONASS L1

### Supported Platforms

- **iOS**: 7.x or greater
- **Android**: 4.1 or greater
- **Windows**: 7 or greater
- **WEHH**: 6.5.x

### Compliance

- **FCC Part 15 (Class B device), CE Mark, RoHS**

### In the Box

- Trimble R1 GNSS receiver
- AC Power adaptor/charger
- USB data cable
- Belt pouch/clip
- Documentation

### Software Compatibility

Please refer to the Product Compatibility list.
